### Guardians

When both parents reside outside Malaysia, parental responsibility must be delegated to a suitable adult resident in Malaysia who has agreed to take full responsibility for the student when not at school ('The guardian'). The guardian must be available to the School and act as an authority for the student as and when necessary. They must be able to come to the school at short notice. The guardian must also be available to look after the student during school holidays and in cases where the student is required to leave school for medical or other reasons. The responsibility for choosing an appropriate guardian rests solely with the parents.
